## **VERSE 1**

Been strung out for days now  
with the road and sun  
I had all of the bet ter things  
but lost every one

Felt the pain of the heat  
and that weary stretch of time  
Stop to rest in a bluegrass field  
the future's on my mind

## **CHORUS**

Cant believe I'm standing here  
Mislead by all my fears  
Don't know how I'll get thru  
Blue Ruin takes her dues (right now)
